

Evaluation of Gathering Location

- I/We will confirm the cleanliness of the washroom and that soap and “one-use-only” items are provided for drying hands (a basket of small towels with enough for one per person, or disposable paper towels). If there are any issues, I/we will speak with the facility staff/homeowner to remedy the situation.
- I/We have confirmed the maximum number of people allowable, according to provincial requirements and/or the facility/homeowner requirements. If I/we expect more people than can be accommodated, I/we will consider another space. If another space is not available, I/we will ensure that attendees are aware of the limit to the number of participants and will encourage them to pre-register prior to the meeting, if possible.
- Recognizing that I/we are not ventilation experts, if this space does not appear to have adequate ventilation I/we will agree to find another space for the gathering.
- I/we have confirmed any requirements by the facility/homeowner, including but not limited to, masking, etc. AND information about the space that might be pertinent such as wheelchair accessibility, animals in the home, parking facilities, etc. I/we will communicate these requirements to attendees PRIOR to the day of the gathering AND at the START of the gathering so that attendees can make an informed choice about attending.
- I/we understand that LLLC is not permitted to ask the vaccination status of any Leader or attendee. If the gathering is to be held in a private home, I have confirmed/will confirm that the homeowner agrees to not request the vaccination status of attendees.
- I understand and agree that one-on-one helping visits as an LLLC Leader are optional. If I choose to provide this service, I will inquire about any special requests that the parent may have BEFORE I enter the home. This may include but is not limited to, masking, hand-sanitizing, etc. If a parent requesting a one-on-one visit asks for my vaccination status, I understand it is my choice whether or not to answer that question. If I am not able to fulfill these requests I will gently inform the parent that it will not be possible for me to provide a one-on-one visit at that time. I will then direct them to other possible services such as the name of a co-Leader, the LLLC online meeting calendar, Ask a Leader webpage, public health services, IBCLCs, etc.
- I/we understand that LLLC must abide by the policies of any public facility being used to hold gatherings. If the facility requires a vaccine passport, mask mandate, etc. in order to use the facility, LLLC must abide by the requirements of the facility.
